DETAILED ACTION

Response to Arguments

Applicant's arguments filed 11-23-2005 have been fully considered but they are not persuasive.

1. A new examiner, Stephen D'Agosta, has been assigned this case.
2. The applicant argues that speed is not taught. The examiner disagrees since the prior art discloses (and the applicant agrees) that speed is tied to a fading profile. Hence a fading profile will be based on speed, which can be inferred, eg. a good profile means the user is traveling at a "slow(er)" rate of speed while a poor profile means a "high(er)" rate of speed. The examiner notes that the claim provides no details as to how the term speed can be interpreted. The examiner invites the applicant to amend with further detail as to fully define their concept regarding this matter such that the prior art does not read on their claim.

3. The applicant argues claim 44 is allowed based on the previous examiner's comments stating "speed is not taught" and then claim 1 should be allowed. The new examiner notes that claim 44 is written in a more narrow fashion than claim 1 and hence all the limitations contribute to make this claim allowable. Therefore, the previous examiner took all the limitations into account and deemed this claim allowable.

4. The previously transmitted office action (mailed 8-26-2005) is upheld. It has not been included. If a copy is required, please call the examiner at the number below.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

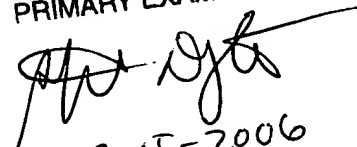

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Stephen M. D'Agosta** whose telephone number is **571-272-7862**. The examiner can normally be reached on M-F, 8am to 5pm.
